

## How to withdraw HMQ tokens

1. HumanIQ Token, ("HMQ"), is a cryptographic token used by the HumanIQ network. It is based on Ethereum blockchain. So, you can withdraw HMQ tokens to any ether wallet you have the private key of ( in other worlds, it should be an ETH wallet with custom token option), for example MyEtherWallet.com (MEW)

**WARNING: DO NOT USE EXCHANGE WALLETS (like Coinbase, Kraken, Poloniex and so on)**

**Withdrawals may take up to a day**

Detailed instruction how to set up MEW <https://blog.humaniq.co/how-to-set-up-an-ethereum-wallet-for-humaniq-tokens-2ba3cd18a5af>

How to setup custom token in MEW:

0 ETH

### Token Balances

Show All Tokens Add Custom Token

Address

0xcf74f77cc53bc72b747c037f02e6f979

Token Symbol

HMQ

Decimals

8

Save

---

Equivalent Values

**Token Address:** 0xcbcc0f036ed4788f63fc0fee32873d6a7487b908

**Token Symbol:** HMQ

**Decimals:** 8

2. Go to [my.humaniq.co](https://my.humaniq.co) and press "Withdraw" button and fill in your ETH address (in our example, MEW wallet address) and password (of [my.humaniq.co](https://my.humaniq.co))

### Withdraw to Ethereum wallet ✕

You have 7495.0001 TOKENS available for withdrawal

**Make sure that you are entering right wallet address.  
Confirm that you have control over private keys.**

ETH address

Password (my.humaniq.co)

3. After the withdrawal has been initiated, you will see the successful withdrawal in your payment history below the website. It will take about some minutes to appear on your MEW. Notice that you will not be able to withdraw one more time after one successful withdrawal. You will see "WITHDRAW STORED". It means you are fine and the transaction will be processed soon.

## How to withdraw HMQ tokens for pre-ICO participants

Simply said, pre-ICO participants just need to add the token address to MEW wallet. Nothing to withdraw.

Log in to your wallet which you used to buy HMQ tokens in December  
Add Custom token with these data:

**Token Address:** 0xcbcc0f036ed4788f63fc0fee32873d6a7487b908

**Token symbol:** HMQ

**Decimals:** 8
