

# RETAIL IN THE AGE OF ARTIFICIAL INTELLIGENCE AND COMMERCE BOTS

September 12, 2017  
Warwick Allerton Chicago  
701 N Michigan Avenue, Chicago, IL 60611

Commerce and shopping have the opportunity to become dramatically more efficient and powerful for both consumers and retailers. This conference convenes the leading merchants and technology companies revolutionizing commerce with real time data, artificial intelligence, card-linking and commerce bots. Hear from the leading retailers and technology companies deploying this technology today.
