

Tour de Satoshi for the 10-year birthday of bitcoin

On January 3rd, 2019 bitcoin will be 10 years old! As a firm believer of bitcoin to be the future global medium of exchange and its sustainable positive impact on human life, I will carry out a bike tour from Florence to Frankfurt through the Alps to draw attention to this event's significance.

about me

Vitus Zeller, a 33-year-old Bavarian world citizen who grew up to be a tech entrepreneur, former race cyclist and bitcoin enthusiast since years.

backstory

The journey starts at the birthplace of modern banking, Florence. It then follows through 5 countries ending in Frankfurt at the European Central Bank (ECB) which is a symbol of today's banking.

Everybody is invited to join me on this journey at any point along the way. Upon my (or our) arrival in Frankfurt, I hope that there will be a crowd of supporters joining in to celebrate the 10th year anniversary of bitcoin in front of the ECB.

challenge

A 1000 km bike ride with 10,000 meters of altitude with luggage in 10 days in unpredictable cold weather conditions through the Alps!

My goal is to pay every night's stay including meals with bitcoin. I hope the community will help me in finding people who will host me and provide dinner in exchange for bitcoin. Bitcoin donations are welcome.

vision

To create awareness for bitcoin and bring forward the decentralization of money and power. I believe in a world where there is a global, open, neutral, censorship-resistant and decentralized currency for the people.

With this bike tour, I am founding the "team satoshi" as a decentralized sports teams for bitcoin enthusiasts. Participants get "sponsored" by collecting donations from the bitcoin community in return for creating mainstream awareness and bringing its adoption forward.

Tour de Satoshi

bitcoin anniversary bike tour
from Florence to Frankfurt

hard facts

1000 km, 10,000 m altitude

10 days (Jan 3-12), 5 countries
